WELCOME TO TUNISIA

Situated in the middle of the Mediterranean region, between a European market marked by a rapid economic development and an African continent boosted by its emergent economy and its market of hundreds of millions of inhabitants, the Tunisian ports are the most recommended sites for a competitive, reliable and secured transit of goods and ships. The Tunisian port chain is composed of 7 ports open to international trade. It spreads over a coast of 1300 km. The diversity of activities of these ports, their complementarity and their exceptional situation allow them to receive all types of ships and to handle all sorts of goods.
